1. The former German Army ammunition plant at Priemerburg near Gistrow is operating; rifle and artillery ammunition is being produced.
2. About 250 Germans are employed in the outer parts of the plant, but are not allowed into the plant itself. No production details can be given but it is stated that one Kasinski, rank unknown, is the head of all ammunition installations in Mecklenburg and Pomerania. One Major Federow is in charge of the Gistrow plant.
3. The production of the plant is done by Russian labor, who have no contact with German civilians. They are believed to be personnel undergoing punishment.
